The Archetypal System

The archetypal system is a map of the human psyche. It is a way of understanding the different parts of ourselves, and how they interact with each other.

The archetypal system is made up of 12 archetypes, each of which represents a different aspect of the human experience. These archetypes are:

- The Innocent
- The Orphan
- The Wanderer
- The Warrior
- The Lover
- The Creator
- The Destroyer
- The Ruler
- The Magician
- The Sage
- The Jester
- The Fool

Each of these archetypes has its own unique strengths and weaknesses. When we understand the archetypes, we can use them to identify and address the root causes of our problems. We can also use them to develop our strengths and talents, and to create a more fulfilling life.

Using Archetypes to Heal

Archetypes can be used to heal in a variety of ways. One way is to identify the archetype that is most active in your life. Once you have identified the archetype, you can begin to work with it to heal the wounds that it has created.

Another way to use archetypes to heal is to create a ritual or ceremony. Rituals and ceremonies can be powerful ways to connect with the archetypes and to heal the wounds that they have created.
