The Happiest Baby on the Block was written by Dr. Harvey Karp, a world-renowned pediatrician and the founder of the Happiest Baby on the Block program. Dr. Karp has spent years studying the science of baby crying, and he has developed a number of techniques that can help you calm your baby down and get them to sleep.

In The Happiest Baby on the Block, Dr. Karp shares his five S's: swaddling, side/stomach position, shushing, swinging, and sucking. These five techniques are designed to mimic the conditions that babies experience in the womb, which can help them to feel calm and secure.
