On December 10, 1968, Merton was found dead in the woods near his monastery in Kentucky. He had been shot in the head, and his death was ruled a suicide.

However, there are many who believe that Merton was not killed by suicide, but rather by the CIA. This is a controversial claim, but there is some evidence to support it.

In this book, [Author's Name] investigates the circumstances of Merton's death and presents new evidence that suggests he was murdered by the CIA. [Author's Name] examines Merton's life and work, and he looks at the political climate of the 1960s. He also interviews people who were close to Merton, and he analyzes the evidence surrounding his death.

[Author's Name]'s investigation is thorough and well-researched. He presents a strong case that Merton was murdered by the CIA. This book is a must-read for anyone who is interested in the life and death of Thomas Merton.
