From July 25th to August 5th, 2023, the hallowed halls of the Ishlinskii Institute in Moscow, Russia, will become a vibrant hub of intellectual exchange as the 3rd International Scientific School for Young Scientists "Ishlinskii Institute" convenes. This prestigious event brings together a cohort of the world's most brilliant young minds in mechanics to engage with renowned experts in the field, delve into cutting-edge research, and chart the course for future scientific advancements.

The 3rd International Scientific School for Young Scientists "Ishlinskii Institute" is a unique platform for fostering collaboration and nurturing the next generation of scientific leaders in mechanics. The school's curriculum is meticulously crafted to provide participants with an immersive learning experience that encompasses:

- **Lectures by Eminent Scientists:** Engage with leading researchers from prestigious universities and research institutions worldwide, who will share their groundbreaking insights and expertise on the latest advancements in mechanics.

- **Hands-on Workshops and Experiments:** Participate in interactive workshops and hands-on experiments that provide practical experience and reinforce theoretical concepts, fostering a deeper understanding of mechanical principles.
- **Cutting-Edge Research Presentations:** Showcase your own research findings and engage in thought-provoking discussions with peers and mentors, contributing to the advancement of knowledge in mechanics.
- **Cultural Immersion:** Immerse yourself in the vibrant culture of Moscow, Russia, through organized excursions and social events, fostering a sense of global community among participants.

The school is open to undergraduate and postgraduate students, PhD candidates, and young researchers from all over the world who are passionate about mechanics and eager to expand their knowledge and skills. The selected participants will benefit from:

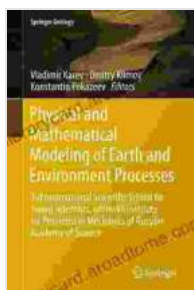

- Access to world-renowned experts in mechanics
- Exposure to cutting-edge research and advancements
- Hands-on experience through workshops and experiments
- A platform to present their own research
- Opportunities for collaboration and networking
- Cultural enrichment and global connections

The 3rd International Scientific School for Young Scientists "Ishlinskii Institute" is an invaluable opportunity for young scientists to accelerate their

careers, gain recognition for their work, and make lasting connections within the global mechanics community. The school's legacy of nurturing scientific talent has resulted in many of its alumni becoming prominent researchers and leaders in their respective fields.

To apply for the 3rd International Scientific School for Young Scientists "Ishlinskii Institute," interested candidates are encouraged to submit their applications by **March 31st, 2023**. The application process involves submitting a research abstract, a CV, and a letter of recommendation. For more information and to apply, please visit the school's official website at <https://www.ishlinskii.ru/en/school/>.

Don't miss this exceptional opportunity to join the brightest minds in mechanics and embark on a transformative scientific journey at the 3rd International Scientific School for Young Scientists "Ishlinskii Institute." Together, let us push the boundaries of knowledge and shape the future of mechanics.
